Independent Auditors' Report

To the Board of Finance of the
Town of Haddam, Connecticut

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Haddam, Connecticut (the Town) as of and for the year ended June 30, 2010, which collectively comprise the Town's basic financial statements as listed in the accompanying table of contents. These financial statements are the responsibility of the Town's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of the Town of Haddam, Connecticut, as of June 30, 2010 and the respective changes in financial position thereof and the respective budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 16, 2010 on our consideration of the Town's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Management's discussion and analysis on pages 3 through 10 and the schedule of funding progress on page 41 are not required parts of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining and individual fund statements and schedules and trend information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The trend information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and, accordingly, we express no opinion on it.

Blum, Shapiro & Company, P.C.

Management's Discussion and Analysis

Management's Discussion and Analysis For the Year Ended June 30, 2010

As management of the Town of Haddam, we offer readers of the Town of Haddam's financial statements this narrative overview and analysis of the financial activities of the Town of Haddam for the fiscal year ended June 30, 2010.

Financial Highlights

- The assets of the Town exceeded its liabilities at the close of the most recent fiscal year by \$20,955,419 (*net assets*). Of this amount, \$4,593,719 (*unrestricted net assets*) may be used to meet the Town's ongoing obligations to citizens and creditors.
- The Town's total net assets increased by \$390,363. This was due substantially to an increase in delinquent interest receivable and donated capital assets.
- As of the close of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$5,134,157, an increase of \$57,276 in comparison with the prior year. This increase is the net of the general fund operating loss of \$500,893 offset by an increase in the debt service fund of \$605,907.
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$2,024,803, a decrease of \$174,877 in comparison with the prior year. This represents 7.5% percent of total general fund expenditures and transfers out.
- Long-term liabilities decreased by a net of \$32,817 due to the pay off of the balance of the note payable after the sale of the related property and an increase of the landfill liability closure cost estimate of \$225,000.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town of Haddam's basic financial statements. The Town's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. One of the most important questions asked about the Town's finances is, "Is the Town as a whole better off or worse off as a result of the year's activities?" The *statement of net assets* and *statement of activities* report information for the Town as whole and attempts to present information in a way that helps answer this question. These statements include *all* assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

The *statement of net assets* presents information on all of the Town's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the *financial* health, or position of the Town is improving or deteriorating.

Other nonfinancial factors that should be considered are changes in the Town's property tax base and the condition of the Town's roads to fully assess the overall health of the Town.

The *statement of activities* presents information showing how the Town's net assets changed during the fiscal year. All changes in net assets are reported as soon as the underlying event occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and long-term liabilities).

The government-wide financial statements present the functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities). The governmental activities of the Town include general government, public safety, public works, health and welfare, and culture and recreation.

Fund financial statements. The fund financial statements provide detailed information about the most significant funds, not the Town as a whole. Some funds are required to be established by State law and others by grants agreements or Board of Finance action. However, the Town establishes many other funds to help it maintain control and manage resources that have been segregated for specific activities or objectives. Funds are also established to ensure and demonstrate compliance with finance related legal requirements for using certain grants. All of the funds of the Town can be divided into two categories: governmental funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a Town's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Town's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Town maintains 12 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general fund and the capital nonrecurring fund, which are considered to be major funds. Data from the other 10 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements in Exhibits B-1 and B-2 in this report.

The Town adopts an annual budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Fiduciary funds. The Town is the trustee, or fiduciary, for its employees' and volunteer firefighters pension plans. It is also responsible for other assets that, because of a trust agreement, can be used only for the trust beneficiaries. All of the Town's fiduciary activities are reported in separate Statements of Fiduciary Net Assets and Changes in Fiduciary Net Assets (Exhibits VI and VII). We exclude these activities from the Town's other financial statements because the Town cannot use these assets to finance its operations. The Town is responsible for ensuring that the assets reported in these funds are used for their intended purposes. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the basic financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town's progress in funding its obligation to provide pension benefits to its employees.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found in Exhibits B-1 and B-2 of this report.

Government-Wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a Town's financial position. The Town's combined net assets increased by 1.9% from a year ago, increasing from \$20,491,624 to \$20,955,419.

By far the largest portion of the Town's net assets (75.2%) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment and infrastructure), less any related debt used to acquire those assets that is still outstanding. The Town uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Town's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

**Town of Haddam
Net Assets**

	Governmental Activities	
	2010	2009
	<u> </u>	<u> </u>
Current and other assets	\$ 8,302,632	\$ 8,527,548
Capital assets, net	16,050,649	15,430,884
Total assets	<u>24,353,281</u>	<u>23,958,432</u>
Long-term liabilities	1,932,317	1,605,134
Other liabilities	1,465,545	1,861,674
Total liabilities	<u>3,397,862</u>	<u>3,466,808</u>

Health and welfare	339,877	409,605
Miscellaneous organizations/recreation	536,160	530,433
Education	19,468,254	20,293,804
Interest on long-term debt	20,194	34,279
Total expenses	<u>27,656,051</u>	<u>28,494,324</u>
Change in net assets	390,363	(1,092,550)
Net Assets, Beginning of Year, as Restated	<u>20,565,056</u>	<u>21,584,174</u>
Net Assets, End of Year	<u>\$ 20,955,419</u>	<u>\$ 20,491,624</u>

Governmental activities (continued)

- Operating grants decreased by \$212,541 (12.1%). The decrease was due to decreased State funding for education. The Federal stimulus monies (ARRA) were provided directly to the Board of Education. In Haddam's case, the monies were sent directly to Regional School District No. 17, which provided the Town's education services. It should be noted that Town's contribution to Regional School District No. 17 was reduced by the same amount.
- Capital grants and contributions increased by \$906,363 (315.2%). This was due to the donation to the Town of completed roads by developers.
- Miscellaneous revenues decreased 99.7% due to the return of monies from Regional School District No. 17 to the Town in the prior year.
- Government-wide expenditures decreased in by \$838,173 (2.94%). The decrease in public works expenses of \$408,298 is due to the capitalization of majority of the road improvements in 2010 vs. the prior year. Education expenses decreased by \$825,550 due to the a decrease in the budget coupled with the decrease in the Town's contribution for education services to Regional School District No. 17 related to the ARRA funding noted above. These decreases were offset by an increase in general government expenses of \$617,982 due to increase funding of the pension plan as well as an increase in insurance other employee benefits.

Financial Analysis of the Town's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a Town's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the Town's governmental funds reported combined ending fund balances of \$5,134,157. The Town has reserved \$702,745 to indicate that it is not available for new spending because it has already been committed 1) for loans under the federal Small Cities economic development program (\$96,338), and 2) for future debt payments (\$605,907).

The total fund balance increased by \$57,276, which was a result of a general fund operating loss of \$500,893, offset by an increase in the debt service of \$605,907.

The general fund is the operating fund of the Town. At the end of the current fiscal year, unreserved fund balance of the general fund was \$2,024,803. As a measure of the general fund's liquidity, it is useful to compare unreserved fund balance to total expenditures. Unreserved fund balance represents 7.5% of total general fund expenditures and transfers out.

The fund balance of the Town's general fund decreased by \$500,893 during the current fiscal year. The Town had originally budgeted the use of prior year fund balance of \$890,000 to balance the fiscal 2009-2010 budget, but these key factors defray the use of this amount:

- Tax revenue collections exceeded estimates by \$519,414; however this additional revenue was offset by decreases in intergovernmental state aid of (\$327,400). Not only did the Town realize an excess of in revenues over the amount budgeted, expenditures came in at \$420,207 less than anticipated.
- The Town realized savings in the Tax Collector, Town Clerk and Land Use offices due to changes in operations.
- Public work also realized savings due to unfilled position, reductions in spending on snow and ice control and solid waste disposal.

Capital Nonrecurring Fund. This fund accounts for the Town's annual budget appropriations that is the funding for the Town's five-year capital plan. The five-year capital plan includes funding for purchases and items which are reserved for specific approved projects. Currently there are approximately 35 separate projects, with many projects funded over multiple years. The Capital Projects fund's expenditures exceeded its revenues and transfers by \$11,213. The total fund balance at June 30, 2010 was \$1,427,736.

General Fund Budgetary Highlights

Differences between the original budget and the final amended budget were an increase of \$54,300. The increases in budget were as follows:

Revised revenue appropriations of \$34,300:

- Revised revenue appropriations for police outside services of \$34,300, to offset the amount of additional expenditures for the year.
- An increase in appropriation of fund balance in the amount of \$22,000 for legal expenditures.

Capital Assets and Debt Administration

Capital assets. The Town's investment in capital assets for its governmental type activities as of June 30, 2010, amounts to \$16,050,649 (net of accumulated depreciation). This investment in capital assets includes land, construction in progress, buildings, land improvements, vehicles, machinery and equipment, sewer lines, roads, bridges, sidewalks and system storm drains. The total increase in the Town's investment in capital assets for the current fiscal year was \$619,765 (4.4%). This increase is largely due to the donation of roads to the Town by developers, and increase in construction on progress for work performed at the library and a partial payment on a new fire engine. Only those assets which cost \$5,000 or more with a useful life exceeding one year are capitalized. Assets costing less than \$5,000 are expensed.

Major capital asset events during the current fiscal year included the following:

- Sale of property with a cost of \$1,000,000.
- Donated roads from developers of \$1,629,950
- Air packs for the Fire Departments totaling \$167,082

**Town of Haddam
Capital Assets - Net**

	Governmental Activities	
	2010	2009
Land	\$ 920,252	\$ 1,903,872
Land improvements	916,694	879,341
Construction in progress	534,094	124,961
Buildings and improvements	4,021,326	4,168,086
Machinery and equipment	801,927	725,247
Infrastructure	7,644,811	6,302,176
Motor vehicles	1,211,545	1,327,201
Total	\$ 16,050,649	\$ 15,430,884

Additional information on the Town's capital assets can be found in Note 5.

Long-term debt. At the end of the current fiscal year, the Town had total debt outstanding of \$294,858. All debt is backed by the full faith and credit of the Town.

**Town of Haddam
Long-Term Liabilities**

	<u>2010</u>	<u>2009</u>
Notes payable	\$ -	\$ 250,000
Capital lease payable	<u>294,858</u>	<u>365,317</u>
TOTAL	<u>\$ 294,858</u>	<u>\$ 615,317</u>

The note payable was paid off during year when the property to which it was related was sold.

The Town does not currently have any bonds outstanding and, therefore, does not have a bond rating as of June 30, 2010.

State statutes limit the amount of general obligation debt a governmental entity may issue to seven times total tax collections including interest and lien fees and the tax relief for elderly freeze grant. The current debt limitation for the Town is \$165,350,276, which is significantly in excess of the Town's outstanding general obligation debt.

Additional information on the Town's long-term debt can be found in Note 7.

Economic Factors and Next Year's Budgets and Rates

- The unemployment rate for the Town is currently 4.0% which is a decrease from a rate of 4.7% a year ago. The Town's rate is favorable as compared to the State rate of 8.8% and comparable to the Hartford Labor Market rate of 8.8%. While Connecticut is still in line with the national average of 9.5%, the overall trend has been clearly negative and job losses are predicted to increase through 2011.
- The Town is under even greater fiscal pressure from voter opposition in the tax levy. Voter opposition remains regardless of the fact that the Town has no control over its significant revenue sources other than property taxes. The Town faces cost increases from contractual obligations as well as fixed costs and the continued failed budgets will only result in loss of services, personnel and infrastructure improvements.

All of these factors were considered in preparing the Town's budget for the 2010-2011 fiscal year.

Requests for Information

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the Town's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Chairman, Board of Finance, Town of Haddam, 30 Field Park Drive, Haddam, CT 06438.

**TOWN OF HADDAM, CONNECTICUT
BALANCE SHEET
GOVERNMENTAL FUNDS (CONTINUED)
JUNE 30, 2010**

Reconciliation of the Balance Sheet - Governmental Funds to the Statement of Net Assets:

Amounts reported for governmental activities in the statement of net assets (Exhibit I) are different because of the following:

Total fund balances for governmental funds (Exhibit III)	\$	5,134,157
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds:		
Governmental capital assets	\$	56,145,615
Less accumulated depreciation and amortization		<u>(40,094,966)</u>
Total capital assets, net		16,050,649
Some of the Town's taxes will be collected after year end, but are not available soon enough to pay for the current period's expenditures and, therefore, are reported as deferred revenue in the governmental funds.		1,296,923
Allowance for uncollectible taxes not reported in the governmental funds.		(75,000)
Accrued interest on property taxes, net, is not susceptible to accrual and, therefore, is not reported in the governmental funds.		481,007
Long-term liabilities applicable to the Town's governmental activities are not due and payable in the current period and, accordingly, are not reported in the funds:		
Capital leases		(294,856)
Net pension obligation		(334,436)
Landfill closure and post closure costs		(1,235,000)
Other		<u>(68,025)</u>
Net Assets of Governmental Activities (Exhibit I)	\$	<u><u>20,955,419</u></u>

(Continued on next page)

**TOWN OF HADDAM, CONNECTICUT
STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES - GOVERNMENTAL FUNDS (CONTINUED)
FOR THE YEAR ENDED JUNE 30, 2010**

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities:

Amounts reported for governmental activities in the statement of activities (Exhibit II) are different because of the following:

Net change in fund balances for governmental funds (Exhibit IV)	\$	57,276
---	----	--------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation and amortization expense. The amount by which depreciation exceeded capital outlays in the current period is as follows:

Capital outlay	\$	1,273,236	
Depreciation expense		(1,785,951)	
Net adjustment			(512,715)

The statement of activities reports losses arising from the disposal of existing capital assets. Conversely, governmental funds do not report any gain or loss on disposal of capital assets. This amount represents the disposal of capital assets.	(1,000,000)
--	-------------

Contributed capital assets increase net assets in the statement of net activities, but do not appear in the governmental funds because they are not financial resources.	1,646,330
--	-----------

Under the modified accrual basis of accounting used in the governmental funds, expenditures are recognized for transactions that are not normally paid with expendable available financial resources. However, in the statement of activities, which is presented on the accrual basis, expenses and liabilities are reported regardless of when financial resources are available.

Change in net pension obligation		5,381	
Other long term liability		(68,025)	
Change in landfill closure and post closure costs		(225,000)	

Interest on property taxes receivable are not susceptible to accrual and, therefore, are only reported as revenue in the funds when the cash is received by the Town. The change in interest receivable during the year increased revenues recognized in the funds.	279,141
---	---------

Certain revenues reported in the statement of activities do not provide current financial resources and therefore are reported as deferred revenues in the governmental funds.	
Change in deferred revenue	(112,486)

The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal on long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. The net effect of these differences in the treatment of long-term obligations is as follows:

Principal repayments on note payable		250,000	
Principal repayments on capital leases		70,461	

Change in Net Assets of Governmental Activities	\$	<u>390,363</u>
---	----	----------------

The accompanying notes are an integral part of the financial statements

**TOWN OF HADDAM, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the Town of Haddam, Connecticut (the Town) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant policies of the Town are described below.

A. Reporting Entity

The Town of Haddam, Connecticut was incorporated in 1668. The Town operates under the Board of Selectmen, Town Meeting and Board of Finance form of government and provides a full range of services including public safety, roads, sanitation, health, social services, culture and recreation, education, planning and zoning, and general administrative services to its residents. The Town is a member of Regional School District No. 17 (the District) along with the Town of Killingworth. The District provides education for grades K-12.

The basic financial statements of the Town include only the funds of the Town, as no component units exist based on operational or financial relationships with the Town.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the Town. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities are normally supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the fiduciary fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied.

**TOWN OF HADDAM, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds use the accrual basis of accounting but have no measurement focus since they report only assets and liabilities.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, except for property taxes, the Town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to landfill closure and postclosure and claims and judgments, are recorded only when payment is due.

Property taxes, grants and contracts, and interest associated with the current period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when the cash is received by the Town.

General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of long-term debt and acquisitions under capital leases are reported as other financing sources.

The Town reports the following major governmental funds:

General Fund - This fund is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Capital Nonrecurring Fund - This fund is to account for the projects approved as part of the Town's five-year capital plan.

In addition, the Town reports the following fiduciary fund types:

Pension Trust Funds - These funds are used to account for resources held in trust for the members and beneficiaries of the Town's defined benefit pension plans. The Town utilizes these funds to account for activities of the following plans: The Town of Haddam Retirement Plan and the Town of Haddam Volunteer Firefighters' Merit Service Retirement Plan.

Agency Funds - These funds are used to account for resources held by the Town in a purely custodial capacity. The Town utilizes these funds to account for assets held for performance bonds. This fund accounts for monies received to ensure that driveways, lawns and roads are installed to correct specifications for new home construction.

D. Deposits and Investments

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

**TOWN OF HADDAM, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

State statutes authorize the Town to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, repurchase agreements and certain other investments.

Investments are reported at fair value.

E. Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “due to/from other funds” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.”

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

F. Capital Assets

Capital assets, which include property, equipment and infrastructure assets (e.g. roads, bridges, sidewalks and similar items), are reported in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial individual cost of more than \$5,000 for equipment, \$20,000 for building improvements and \$20,000 for infrastructure, and an estimated useful life of at least five years. Such assets are recorded at historical cost, or estimated historical cost, if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of a capital asset or materially extend capital asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Capital assets of the Town are depreciated using the straight line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Land improvements	50
Buildings and improvements	40 - 75
Machinery and equipment	5 - 25
Motor vehicles	5 - 15
Infrastructure	30 - 50

G. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable statement of net assets. In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums

**TOWN OF HADDAM, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

H. Net Pension Obligation

The net pension obligation represents the cumulative difference between the annual pension cost and the Town's contributions to the plans. This amount is calculated on an actuarial basis and is recorded as a noncurrent liability in the government-wide financial statements.

I. Equity

Equity in the government-wide financial statements is defined as "net assets" and is classified in the following categories:

Invested in Capital Assets, Net of Related Debt - This component of net assets consists of capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

Restricted Net Assets - Net assets are restricted because they are externally imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation.

Unrestricted Net Assets - This component consists of net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

The equity of the fund financial statements is defined as "fund balance" and is classified in the following categories:

Reserved Fund Balance - represents amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Designated Fund Balance - represents tentative management plans that are subject to change.

Unreserved Fund Balance - serves as a measure of current available financial resources.

J. Property Taxes

Property taxes are assessed as of October 1 and are levied on the following July 1. Real estate and personal property taxes are due in two installments, July 1 and the following January 1. Motor vehicle taxes are payable on July 1 and supplemental motor vehicle taxes are payable on January 1.

Based on historical collection experience and other factors, the Town has established an allowance for uncollectible taxes and interest and lien fees of \$75,000 and \$300,000, respectively, as of June 30, 2010.

**TOWN OF HADDAM, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

Taxes not paid within 30 days of the due date are subject to an interest charge of 1.5% per month. The Town files liens against property if taxes that are due July 1 remain unpaid on the following June 30.

Property tax revenues are recognized when they become available. Available means due or past due and receivable within the current period. Property taxes receivable outstanding as of the end of the fiscal year are reflected in deferred revenue in the fund financial statements. The entire receivable is recorded as revenue in the government-wide financial statements. Property taxes collected prior to June 30 that are applicable to the subsequent year's assessment are reflected as advance tax collections in both the fund financial statements and the government-wide financial statements.

K. Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

2. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

The General Fund is the only fund for which an annual budget is legally adopted. The Town adheres to the following procedures in establishing the budgetary data included in the General Fund financial statements.

- At the annual Town Meeting in May, at which taxpayer comments are obtained, the proposed operating budget for the fiscal year commencing July 1 is presented. The operating budget, which is prepared by fund, function and department, includes proposed expenditures and the means of financing them.
- Prior to July 1, the budget is legally enacted at a Town Meeting.
- The Board of Selectmen is authorized to transfer budgeted amounts within departments. Transfers of budgeted amounts between departments must be approved by the Board of Finance. The Board of Finance can approve additional appropriations for a department provided such additional appropriations do not exceed \$20,000, or is a second request. Appropriations in excess of \$20,000 must be submitted to a Town Meeting for approval. Management of the Town is not authorized to transfer budgeted amounts or to approve additional appropriations. During the year, additional general fund appropriations of \$56,300 were authorized. An amount of \$34,300 was funded from revised revenue estimates and the remainder of \$22,000 was additional appropriations from fund balance.
- The Regional School District is responsible for the administration of the Board of Education budget.

**TOWN OF HADDAM, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

- Formal budgetary integration is employed as a management control device during the year.
- The budget is prepared on the modified accrual basis of accounting.
- The legal level of control, the level at which expenditures may not legally exceed appropriations, is at the department level. For the year ended June 30, 2010, there were no instances where expenditures exceeded appropriations at the department level (the legal level of control) of the General Fund.

3. CASH, CASH EQUIVALENTS AND INVESTMENTS

The deposit of public funds is controlled by the Connecticut General Statutes (Section 7-402). Deposits may be made in a “qualified public depository” as defined by Statute or in amounts not exceeding the Federal Deposit Insurance Corporation insurance limit in an “out of state bank,” as defined by the Statutes, which is not a “qualified public depository.”

The Connecticut General Statutes (Section 7-400) permit municipalities to invest in: 1) obligations of the United States and its agencies, 2) highly rated obligations of any state of the United States or of any political subdivision, authority or agency thereof, and 3) shares or other interests in custodial arrangements or pools maintaining constant net asset values and in highly rated no-load open end money market and mutual funds (with constant or fluctuating net asset values) whose portfolios are limited to obligations of the United States and its agencies, and repurchase agreements fully collateralized by such obligations. Other provisions of the Statutes cover specific municipal funds with particular investment authority. The provisions of the Statutes regarding the investment of municipal pension funds do not specify permitted investments. Therefore, investment of such funds is generally controlled by the laws applicable to fiduciaries and the provisions of the applicable plan.

The Statutes (Sections 3-24f and 3-27f) also provide for investment in shares of the State Short-Term Investment Fund (STIF) and the State Tax Exempt Proceeds Fund (TEPF). These investment pools are under the control of the State Treasurer, with oversight provided by the Treasurer’s Cash Management Advisory Board, and are regulated under the State Statutes and subject to annual audit by the Auditors of Public Accounts. Investment yields are accounted for on an amortized-cost basis with an investment portfolio that is designed to attain a market-average rate of return throughout budgetary and economic cycles. Investors accrue interest daily based on actual earnings, less expenses and transfers to the designated surplus reserve, and the fair value of the position in the pool is the same as the value of the pool shares.

A. Deposits

Deposit Custodial Credit Risk - Custodial credit risk is the risk that, in the event of a bank failure, the Town’s deposit will not be returned. The Town does not have a deposit policy for custodial credit risk. The deposit of public funds is controlled by the Connecticut General Statutes. Deposits may be placed with any qualified public depository that has its main place of business in the State of Connecticut.

**TOWN OF HADDAM, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

Based on the criteria described in GASB Statement No. 40, Deposits and Investment Risk Disclosures, \$1,777,672 of the Town’s bank balance of \$2,744,098 was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ 1,524,905
Uninsured and collateralized with securities held by the pledging bank’s trust department or agent but not in the Town’s name	<u>252,767</u>
	<u><u>\$ 1,777,672</u></u>

Connecticut General Statutes require that each depository maintain segregated collateral (not required to be based on a security agreement between the depository and the municipality and, therefore, not perfected in accordance with federal law) in an amount equal to a defined percentage of its public deposits based upon the depository’s risk based capital ratio.

B. Cash Equivalents

Cash equivalents are short-term, highly liquid investments that are both readily convertible to known amounts of cash and purchased within 90 days of maturity. At June 30, 2010 the Town’s cash equivalents amounted to \$100,474. The following table provides a summary of the Town’s cash equivalents (excluding U.S. government guaranteed obligations) as rated by nationally recognized statistical rating organizations. The pools all have maturities of less than one year.

In accordance with GASB Statement No. 40, *Deposit and Investment Risk Disclosures*, the Town has separately disclosed its Pension Trust Fund investments, as these investments have greater risk exposures than the Town's investments. As of June 30, 2010, the Pension Trust Fund investments totaled \$3,340,693 and consisted of mutual funds investing in cash, bonds and equity securities.

Government-wide statement of net assets:	
Investments	\$ 3,716,200
Statement of fiduciary net assets:	
Investments - Pension Trust Funds	3,340,693
Investments - Agency Funds	<u>539,793</u>
	<u>\$ 7,596,686</u>

Interest Rate Risk - The Town does not have a formal investment policy that limits Town or Pension Trust Fund investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**TOWN OF HADDAM, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

Credit Risk - The Town has no investment policy that would further limit its investment choices beyond those limited by Connecticut State Statutes. Connecticut State Statutes permit the Town to invest in obligations of the United States, including its instrumentalities and agencies; in obligations of any state or of any political subdivision, authority or agency thereof, provided such obligations are rated within one of the top two rating categories of any recognized rating service; or in obligations of the State of Connecticut or of any political subdivision thereof, provided such obligations are rated within one of the top three rating categories of any recognized rating service. The Pension Trust Funds may also invest in certain real estate mortgages, in certain savings banks or savings and loan associations, or in stocks or bonds or other securities selected by the trustee, with the care of a prudent investor.

Custodial Credit Risk - For an investment, custodial credit risk is the risk that, in the event of the failure of a counterparty, the Town will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Town's investments are not exposed to custodial credit risk at June 30, 2010. The Town does not have a policy for custodial credit risk.

Concentrations of Credit Risk - The Town places no limit on the amount of investment in any one issuer. More than 5% of the Town's investments are in certificates of deposit and the Short-Term Investment Fund. More than 5 percent of the Pension Trust Fund investments are in mutual funds, but are not exposed to concentrations of credit risk, as these investments are considered to be diversified by nature.

4. DEFERRED REVENUE

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Delinquent property taxes receivable	\$ 1,296,923	\$ 75,153
Advance collection of property taxes		692,741
Grant drawdowns prior to meeting all eligibility requirements		10,000
	<u>\$ 1,296,923</u>	<u>\$ 777,894</u>

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

6. INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund receivable and payable balances at June 30, 2010 are as follows:

Receivable Fund	Payable Fund	Amount
Governmental Funds:		
General Fund	Nonmajor Funds	\$ 38,544
Capital Nonrecurring Fund	General Fund	1,154,530
Nonmajor Funds	General Fund	1,229,015
		\$ 2,422,089

The above balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Interfund transfers for the year ended June 30, 2010 consisted of the following:

Transfers In	Transfers Out	Amount
Governmental funds:		
Capital Nonrecurring Fund	General Fund	\$ 695,800
Nonmajor funds	General Fund	935,907
		\$ 1,631,707

Transfers are used to move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

7. LONG-TERM LIABILITIES

A. Changes in Long-Term Liabilities

The following is a summary of changes in long-term liabilities for the year ended June 30, 2010:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>	<u>Due Within One Year</u>
Governmental activities:					
Note payable	\$ 250,000	\$	\$ 250,000	-	\$
Capital leases	365,317		70,461	294,856	73,988
Net pension obligation	339,817		5,381	334,436	
Landfill closure and post closure costs	1,010,000	225,000		1,235,000	
Other		68,025		68,025	27,210
	<u>\$ 1,965,134</u>	<u>\$ 293,025</u>	<u>\$ 325,842</u>	<u>\$ 1,932,317</u>	<u>\$ 101,198</u>

The above liabilities have typically been liquidated by the General Fund.

B. Debt Limitations

Connecticut General Statutes Section 7-374(b) provides that authorized debt of the Town shall not exceed seven times base receipts, as defined in the Statute, or \$165,350,276 as of June 30, 2010. Further, the Statute limits the amount of debt that may be authorized by the Town for general purposes, schools, sewers, urban renewal and pension deficit. The Town did not exceed any of the statutory debt limitations at June 30, 2010.

C. Regional School District Commitments

The Town of Haddam is a member of Regional School District No. 17, which provides education facilities for grades kindergarten through twelve for the towns of Haddam and Killingworth. As of June 30, 2010, the outstanding bonded indebtedness of the District was \$20,000,000. The Town of Haddam's share will be approximately 57% of the outstanding indebtedness, or \$11,400,000. These are general obligations of Regional School District No. 17 and its member towns. However, the Town is not required to record its share in its financial statements.

**TOWN OF HADDAM, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

D. Capital Leases

A summary of assets acquired through capital leases are as follows as of June 30, 2010:

	Governmental Activities
Motor vehicles	\$ 601,478
Less accumulated amortization	198,415
	\$ 403,063

Amortization expense relative to leased property under capital leases totaled \$40,098 for the year ended June 30, 2010 and is included in depreciation and amortization expense disclosed in Note 5.

Future minimum lease obligations and the net present value of these minimum lease payments as of June 30, 2010 are as follows:

Year Ending June 30	Governmental Activities
2011	\$ 87,020
2012	49,920
2013	49,920
2014	49,920
2015	49,920
2016	49,920
Total minimum lease payments	336,620
Less amount representing interest	41,764
Present Value of Minimum Lease Payments	\$ 294,856

E. Landfill Closure and Post-Closure Care Costs

State and Federal laws and regulations require landfill closures to meet certain standards. The Town is in the process of finalizing an agreement with the State Department of Environmental Protection for final capping of the landfill. Estimated covering costs as of June 30, 2010 are \$875,000 and monitoring costs for the next 30 years at \$12,000 per year are \$360,000. These amounts are based on estimates which are subject to change due to inflation, technology or applicable laws and regulations.

The Town through annual funding in the capital plan had accumulated \$450,285 toward the payment of the estimated costs.

**TOWN OF HADDAM, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

F. Other

In the course of Town operations, there may be occurrences in which miscellaneous long-term obligations are incurred. These liabilities are recorded when an obligation can be reasonably estimated and has a reasonable probability of becoming due and payable.

8. PENSION PLANS

A. Defined Benefit Plans

The Town maintains two single-employer defined benefit pension plans: The Town of Haddam Retirement Plan (the Town Employees' Pension Plan) and the Town of Haddam Volunteer Firefighters' Merit Service Retirement Plan (the Volunteer Firefighters' Pension Plan) (collectively the Plans). Benefit provisions of the Plans are established and can be amended by the Board of Selectmen. The Plans do not issue stand-alone financial statements and are part of the Town's financial reporting entity. As such, the Plans are accounted for in the fiduciary fund financial statements as Pension Trust Funds.

Plan Descriptions

Town Employees' Pension Plan

Each employee of the Town who is scheduled to work at least 30 hours per week for 12 months of the year is eligible to participate in the Plan. The Plan provides retirement benefits as well as death and disability benefits. Participants are 100% vested after seven years. Annual retirement benefits for plan participants are 2% of an employees' final average compensation multiplied by the number of years of credited service, up to a maximum of 30 years. The State of Connecticut Statutes assign the authority to establish and amend the benefit provisions of the plan to the Town of Haddam.

Volunteer Firefighters' Pension Plan

Each volunteer firefighter whose name is on the roster of the Haddam Volunteer Fire Company and the Haddam Neck Volunteer Fire Department as of the effective date of the plan is eligible to participate in the Pension Plan, following one year of credited service. This Plan does not provide disability benefits. Under the provisions of the plan, the Town must provide annual contributions sufficient to satisfy the actuarially determined contribution requirements. Benefits and contributions are established by the Town. The State of Connecticut Statutes assign the authority to establish and amend the benefit provisions of the plan to the Town of Haddam.

**TOWN OF HADDAM, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

Plan Membership

Membership of the Plans consisted of the following at the date of the latest actuarial valuations:

	Town Plan	Firefighters' Plan
Retirees and beneficiaries currently receiving benefits	10	20
Terminated employees entitled to benefits but not yet receiving them	9	33
Active plan members	24	55
	43	108

Summary of Significant Accounting Policies

The Plans are accounted for using the accrual basis of accounting. Employer contributions to the plans are recognized when due and the employer has made a formal commitment to provide contributions. Benefits and refunds are recognized when due and payable in accordance with the terms of the Plans.

Investments are recorded at fair value. Short-term investments are reported at cost, which approximate fair value. Fair value of other securities is determined by the mean of the most recent bid and asked prices as obtained from dealers that make markets in such securities. Investments for which market quotations are not readily available are valued at their fair values as determined by the custodian under the direction of the Town, with the assistance of a valuation service. Securities traded on national exchanges are valued at the last reported sales price. Investment income is recognized when earned and gains and losses on sales or exchanges are recognized on the transaction date.

Administrative costs are funded by the Town.

Funding Policy

Contribution requirements of the plan members and the Town are established, and may be amended, by the Board of Selectmen. The Town is required to annually contribute an actuarially determined amount to fund benefits. In addition to actuarially determined contributions, the Town also makes annual installment payments, including interest at 7%, for the cost of service credit granted retroactively to employees before funding began.

For the year ended June 30, 2010 employer contributions to the Town Plan represented 44.4% of covered payroll.

**TOWN OF HADDAM, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS

9. COMMITMENTS AND CONTINGENCIES

There are various suits and claims pending against the Town, none of which, individually or in the aggregate, is believed by legal counsel to be likely to result in a judgment or judgments that would materially affect the Town's financial position.

The Town has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursement to the grantor agency for any expenditures disallowed under terms of the grant. Based upon prior experience, Town management believes such disallowance, if any, will not be material.

**TOWN OF HADDAM, CONNECTICUT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2010**

10. RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets; errors or omissions; injuries to employees or acts of God for which the Town carries commercial insurance. Neither the Town nor its insurers have settled any claims which exceeded the Town's insurance coverage in any of the last three fiscal years. There have been no significant reductions in any insurance coverage from amounts in the prior year.

The Town currently is a member in Connecticut Interlocal Risk Management Agency (CIRMA), a public entity risk pool established for the purpose of administering an interlocal risk management program pursuant to the provisions of Section 7-479a et. Seq. of the Connecticut General Statutes, for workers' compensation and employer liability coverage. CIRMA is to be self-sustaining through members' premiums but reinsures in excess of \$1,000,000 for each insured occurrence. Members may be subject to supplemental assessment in the event of deficiencies; however, potential assessments are limited by the by-laws.

The Town is also a member in Regional School District No. 17's medical health insurance fund, a public entity risk pool established for the purpose of administering medical benefits for each participating entity in the fund. The Town pays an annual contribution for its coverage. The fund is to be self-sustaining through members' premiums, but reinsures in excess of \$75,000 for each insured occurrence. The pooling agreement allows for the pool to make additional assessments to make the pool self-sustaining; it is not possible to estimate the amount of such additional assessments.

The Town purchases commercial insurance for all other risks of loss, including blanket and umbrella policies.
