SECTION 12. EFFECTIVE DATE OF REGULATIONS

SECTION 1. PURPOSE, TITLE AND AUTHORITY

1.1 The purpose of these regulations is to protect the forest land within the Town of HADDAM jurisdiction by governing the conduct of forest practices including, but not limited to, the harvest of commercial forest products and other such matters as the Town of HADDAM Inland Wetlands and Watercourses Commission deems necessary to carry out the provisions of these regulations. These regulations are meant to achieve the following purposes and policies:

1.2

- a) afford protection to and improvement of air and water quality;
- b) afford protection to forests from fire, insects, disease and other damaging agents;
- c) afford protection to and promote the recovery of threatened and endangered species regulated pursuant to Chapter 495 of the Connecticut General Statutes;
- d) encourage the harvesting of forest products in ways which result in no net loss of site productivity and which respect aesthetic value;
- e) provide a continuous supply of forest products from a healthy, vigorous forest resource;
- f) promote the sound professionally guided, long term management of forested land and forest resources, considering both the goals of ownership held by the forest owner and the public interest;
- g) encourage the retention of healthy forest vegetation whenever possible as forested lands are converted to non-forest uses or developed for recreational, residential or industrial purposes;
- h) limit soil erosion, protect water bodies, watercourses and vernal pools ~~from~~ sedimentation and other pollutants;
- i) provide the Commissioner of Energy and Environmental Protection with essential data on pressures and influences on forest resources, Town wide and on the rate of loss of forested lands.

1.3 These regulations shall be known as the "Forest Practices Regulations of the Town of HADDAM Inland Wetlands and Watercourses Commission".

1.4 The Inland Wetlands and Watercourses Commission of the Town of Haddam was established in accordance with an ordinance adopted September 22, 1994. The Town of Haddam adopted a resolution that authorized the Wetlands Commission to regulate forest practices on (to be added)

1.5 These regulations have been adopted and may be amended, from time to time, in accordance with changes in the Connecticut General Statutes Chapter 451a Forest Practices or Regulations of the Connecticut Department of Energy and Environmental Protection or as new

information regarding forest practices becomes available and may be amended, from time to time, in accordance with the provisions of Section 12 of these regulations.

1.6 These regulations shall apply to all forest practices on all tracts located in the Town of HADDAM, CT. except for state owned forest land managed by the State of Connecticut's Department of Energy and Environmental Protection.

SECTION 2. DEFINITIONS

2.1 As used in these regulations or in discussion of applications the following definitions apply:

"Abutting landowner" means the owner of record of any property adjacent to the subject property including properties across a street or other right-of-way.

"Act" means the Connecticut Forest Practices Act, Sections 23-65f through 23-65q of the Connecticut General Statutes, as the same may be amended.

"Applicant" means a person who files an application.

"Application" means application for a harvest of commercial forest products on a form filed with the Commission.

"Authorized activity" means any activity authorized by the Commission pursuant to these Regulations.

"Best Management Practices": means a practice, or combination of practices, that is determined to be an effective and practical (including technological, economic and institutional considerations) means of preventing or reducing the amount of pollution generated by non-point sources to a level compatible with water quality standards. At a minimum, all activities are to be carried out in accordance with the current Connecticut Field Guide: Best Management Practices for Water Quality While Harvesting Forest Products as published by Connecticut's Department of Energy and Environmental Protection (or as amended in the future).

"Buffers" means an area that serves as a protective barrier in which no activity shall occur, unless however, there is cause and a demonstrated need to conduct an activity when concern for public safety is raised where trees have been severely weakened and/or impacted by insect, disease, drought, or invasive vegetative species or as allowed by these regulations.

"Clear-cut" means the practice of harvesting of timber in a fashion which all or substantially all trees greater than two (2) inch DBH are harvested.

"Commercial forest practitioner" means an individual certified as a forester, supervising forest products harvester or forest products harvester in accordance with Section 23-65h of the Connecticut General Statutes, as the same may be amended

"Commercial forest practices" means any forest practices performed by a person other than the owner of the subject forest land for remuneration, or which, when performed, yield commercial forest products.

"Commercial forest products" means wood products harvested from a tract of forest land in excess of fifty (50) cords or one hundred fifty (150) tons or twenty-five thousand (25,000) board feet, whichever measure is appropriate, in any twelve-month period.

"Commission" means the Inland Wetlands and Watercourses Commission of the Town of Haddam.

"Commission member" means a member of the Inland Wetlands and Watercourses Commission of the Town of Haddam.

"Commissioner of Energy and Environmental Protection" means the Commissioner of the State of Connecticut's Department of Energy and Environmental Protection (DEEP).

"Conversion of forest land" means any alteration of the forest to another use, such as, but not limited to, pasture, building site, driveway, or lawn.

"DBH" means diameter as measured at breast height, breast height being a point 4-1/2 feet from the tree's median base elevation.

"Designated Agent" means the Wetlands Enforcement Officer (WEO) or an individual(s) designated by the Commission to carry out its functions and purposes.

"Erosion" means detachment and transportation of soil resulting from the action of water or wind.

"Erosion Control Measure" means defined procedures intended for controlling the detachment of soil, the movement of water and/or the deposition of sediment.

"Flagging" means the hanging or tying of brightly colored markers from trees within forest land at intervals such that flags are readily visible from flag to flag, markers shall be placed so as to be visible from one another in all seasons; in addition, flagging may be used in a single location to designate a certain feature or object.

"Ford" means a crossing of a watercourse which is accomplished by traversing through, rather than over, the watercourse and without utilizing a bridge, culvert, fill, or structure to span the channel.

"Forest land" means that portion of a parcel of land which constitutes a total of at least one contiguous acre on which there is no structure, maintained landscape area, access way or other improvement and which is (A) occupied in random distribution by trees having a minimum diameter of three inches as measured from a point on the trunk which is four and one-half feet above the ground, such trees comprising at least seven and one-half square feet of basal area and the crowns of such trees occupying no less than fifteen per cent of the total area; or (B) which is planted with at least five hundred trees per acre and is not maintained for Christmas tree or nursery stock productions.

"Forest practice" means any activity which may alter the physical or vegetative characteristics of forest land that is undertaken in connection with the harvest of commercial forest products unless such harvest is undertaken pursuant to the conversion of forest land to other uses and

such conversion has been approved by a) the Planning and Zoning commission, b) if the forest land includes any Wetlands, c) Zoning Board of Appeals, d) Zoning Enforcement Officer.

"Forest practitioner" means any person who engages in forest practices.

"Forest stand" means a contiguous group of trees of the same species, general age or ages, and condition so that such group constitutes a homogeneous and distinguishable unit.

"Harvest" means to fell or excavate a tree, cut a tree to log length, transport a tree or log material to a landing or public road, or sort or stack log material at a landing.

"Haul Roads" means temporary roads provided within a regulated site area to allow movement of material, machinery and labor.

"Intermittent Watercourses" shall be delineated by a defined permanent channel and bank and the occurrence of two or more of the following characteristics: (a) evidence of scour or deposits of recent alluvium or detritus, (b) the presence of standing or flowing water for duration longer than a particular storm incident, and (c) the presence of hydrophytic vegetation.

"Landing" means an area within or adjacent to a harvesting area where forest products are collected for processing, loading and transport.

"Landowner" means a person with an ownership interest in forest land.

"License" means the whole or any part of a permit, certificate of approval or similar form of permission which may be required of any person by the provisions of these regulations.

"Logging Roads" means non-public road used by trucks going to and from landings to transport logs.

"Municipality" or **"Town"** means the Town of Haddam, Middlesex County, Connecticut.

"Operational Plan" means a focused plan, which deals strictly with the operational aspects of conducting the harvest of forest products. This plan would address, but not be limited to, the design and creation of access roads, felling techniques, erosion and sedimentation control, and protection of wetland and watercourses.

"Operator" means a person who has primary responsibility for directing a forest practice and shall be a Certified Forest Practitioner certified by the State of Connecticut in accordance with Section 23-65h of the Connecticut General Statutes, as the same may be amended, as either a Supervising Forest Products Harvester or a Forester.

"Operating area" means the specific area in which an authorized activity takes place or will take place at a site.

"Perennial Stream" means a stream that has running water on a year-round basis under normal climatic conditions.

“Permit” means the whole or any part of any license, certificate or approval similar form of permission which may be required of any person by the provisions of these regulations under the authority of the Commission.

“Permittee” means the person to whom such permit has been issued.

"Person" means any individual, firm, partnership, association, corporation, limited liability company, company, organization or legal entity of any kind, including any political subdivision of the state and including any state agency.

"Residual stand" means trees remaining in a forest stand upon completion of a forest practice.

"Rut" means a groove, depression, or track worn into the soil by the passage of equipment or by other means.

"Silviculture plan" means a plan written by a certified forester for the delineation of an operating area and the selection of trees for harvest within such operating area. A silviculture plan shall further the goals and objectives for the growth composition, health and quality of the forest as stated by the landowner of the subject land on a sustainable basis. A silviculture plan shall have been derived from a comprehensive analysis of data pertaining to the capability of the operating area to grow trees and the species, size, quality, age and number of trees on the operating area. Further, such plan shall conform to commonly accepted principles of forestry, forest science and forest management.

"Site" means geographically contiguous forest land owned by the same person(s). Noncontiguous forest land owned by the same person(s) and connected by a right-of-way which such person(s) controls and to which the public does not have access shall be deemed the same site.

"Skidding" means the transportation by any method of trees or log material from a harvesting area to a landing.

"Skid road" means a temporary road(s) designed to move logs from the harvest area to a landing.

"Skid trail" means a trail that is used to bring logs to a skid road or on small harvests directly to a landing.

"Slash" means any residual woody material left on the site after a harvest operation and usually includes tree stems, and branches.

“Snag” means a dead tree, commonly tall and limbless. A valuable wildlife resource.

"Soil stabilization" means the minimizing of soil erosion through best management practices.

"State" means the State of Connecticut.

"Tree" means a woody perennial plant having one or more self-supporting stems or trunks which has a definitely formed crown and is normally expected to attain a mature height of over twenty feet.

"Truck Roads" are defined to be those upon which forest products are transported by a truck or trailer. Truck roads are used to take logs from a landing to a public road.

"Vernal pool" means any watercourse that meets the following criteria: 1) It is a depression that is permanent or seasonal, typically containing water for approximately two months during the growing season, but may contain water at other times during the year; 2) It occurs within a confined depression or basin that lacks a permanent outlet stream; 3) It lacks any fish population; 4) It dries out most years, usually by late summer; 5) It supports the successful breeding and development of at least one of the following obligate animal species: wood frog, spotted salamander, Jefferson salamander/Blue-spotted salamander complex, marbled salamander, or fairy shrimp.

"Volume" refers to the amount of wood in a tree or log. Expressed as board feet, cubic feet, cords or other measure.

"Water Bar" is a diagonal ditch or hump in a trail that diverts surface water runoff to minimize soil erosion.

"Watercourses" means rivers, streams, brooks, waterways, lakes, ponds, marshes, swamps, bogs and all other bodies of water, natural or artificial, vernal or intermittent, public or private, which are contained within, flow through or border upon the Town or any portion thereof not regulated pursuant to Sections 22a-28 through 22a-35, inclusive, of the Connecticut General Statutes as amended. (see also "Intermittent Watercourses" above).

"Wetlands" means land, including submerged land, not regulated pursuant to Sections 22a-28 through 22a-35 (tidal wetlands), inclusive, of the Connecticut General Statutes, which consists of any of the soil types designated as poorly drained, very poorly drained, alluvial, and floodplain by the National Cooperative Soils Survey, as may be amended from time to time, of the Natural Resources Conservation Service of the United States Department of Agriculture. Such areas may include filled, graded, or excavated sites which possess as aquic (saturated) soil moisture regime as defined by the United States Department of Agriculture Cooperative Soil Survey.

"WEO" means the "Wetland Enforcement Officer," employed by the Town of Haddam to act as the Designated Agent for the Wetlands Commission to carry out its delegated functions and purposes.

SECTION 3. REQUIREMENTS FOR A COMMERCIAL FOREST PRACTICE PERMIT

When conducting any commercial forest practice, the operator shall assure compliance with the following requirements unless otherwise authorized in writing by the Commission:

3.1 Operational Plan:

An Operational Plan shall be developed for any commercial forest practice and all activities are to be carried out in accordance with the then current Connecticut Field Guide: Best Management Practices for Water Quality While Harvesting Forest Products (or as

amended/updated) as published by Connecticut's Department of Energy and Environmental Protection and all other subsections found in Section 4 (Application Requirements). The operational plan shall include at a minimum:

- a. Existing and/or planned forest access systems (roads, trails, landings).
- b. Proposed stream and other "Watercourses" crossings
- c. The location of rivers, streams, waterways, lakes and others that are so noted in the definition of "Watercourses"
- d. Type and number of vehicles to be used on the site
- e. Danger or hazard areas
- f. Hours of operation are suggested to be between 7:00 a.m. and 6:00 p.m. Mondays through Saturdays unless modified and approved by WEO/Commission.

3.2 Buffers

1. Buffers shall be maintained adjacent to the operating area unless [an activity is](#) separately authorized by an approved permit from the Inland Wetland and Watercourses Commission [area](#) as follows:

- a. A buffer of a minimum of 50 feet in width surrounding a vernal pool to aid in integrity of said vernal pool, provide a shade zone, and minimize disturbance of the forest floor.
- b. A buffer of a minimum of 10 feet in width from the edge of any existing public right of way.
- c. A buffer of a minimum of 30 feet in width along any watercourse where the first 15 feet in width beginning at the watercourse with a 0-10% slope shall remain undisturbed. Indicate on any mapping all areas of concern where a disturbed area will occur beyond the 10% slope near any watercourse.
- d. No landing, truck road, or skid road, other than a ford or other crossing, shall be established within the buffer along a watercourse. The Commission may consider a waiver based on site conditions that may constrain entry onto the site, i.e., as in the case of a backlot

3.3 Erosion

a. If erosion occurs as a result of a forest practice additional erosion control measures shall be established as the Commission may require, including without limitation, the installation of silt fences, invasive free straw, detention basins, rip rap, top soil, invasive free mulch, or seeding with herbaceous cover appropriate to the time of year. Such stabilization shall be maintained during the conduct of the forest practice and left in a functional condition upon termination of such forest practice; however, the Commission reserves the right to require that the original grade be restored.

b. Any temporary structures for approved wetland crossings shall be removed within 30 days of non-use.

c. The Commission may require a sedimentation and erosion control bond.

3.4 Wetlands and Watercourses

a. If disturbance is proposed in a regulated area, as defined in the Town Inland Wetlands and Watercourses Regulations, an application [and/or jurisdictional ruling request](#) to conduct a regulated activity must be submitted prior to or simultaneously with an application to conduct commercial forest practices.

3.5 Slash

a. All slash resulting from a forest practice shall be placed so as to prevent it from entering, by erosion, high water, or other natural forces, into a perennial stream. Slash which enters a perennial stream shall be removed immediately.

b. Slash shall not be placed closer than 50 feet from any boundary of an abutting property. (If slash is to be stacked, then it shall not be stacked to a height not to exceed four feet). Slash in other areas of the site may be stacked up to 10 feet to promote regeneration techniques.

3.6 Site Markings

a. All trees within 25ft of a property line or watercourse, planned to be removed, shall be visibly marked.

b. Property lines shall be marked at a minimum of every 50ft. All property corners shall be marked as to be visible from the abutting property.

c. Site markings shall also be used for each operational design feature such as landings, logging roads, or buffer areas and will be flagged prior to approval.

3.7 Completion of Forest Practice

Land Owner will notify WEO/Designated Agent within 20 days of completion of activities. The operator shall complete all stabilization measures required for the closure of truck roads, logging roads, haul roads, skid roads, skid trails, landings, and watercourse crossings upon completion of the forest practice or within 30 days of non-use, whichever is earlier. If permanent stabilization measures are not possible due to weather conditions, the operator shall complete such temporary stabilization measures as deemed appropriate by the Commission or its WEO/Designated Agent until weather conditions permit implementation of permanent stabilization measures.

SECTION 4. APPLICATION REQUIREMENTS

4.1 Scope of Application

An applicant shall, on one application, seek approval for every forest practice at a single site and for a one time period for which forest practice(s) the applicant seeks authorization under this section. The Application shall contain information as is necessary whereby a fair and informed decision can be made by the Commission.

4.2 Fee

- a. The application fee shall be submitted with an application form.
- b. See Section 11 Application Fees of these regulations for more information and requirements.

4.3 Application Form

Any person intending to conduct a regulated activity or to renew or amend a permit shall apply on forms prescribed and provided by the Commission and shall include the following:

- a. Legal name(s), addressee(s), e-mail and telephone number(s) of the landowner(s) of record of the land upon which the proposed forest practices are to occur.
- b. Legal name, address, e-mail and telephone number of the applicant, if different from the landowner. If the applicant is a certified forest practitioner, provide the applicant's certification number. If the applicant is a corporation or a limited partnership, provide the exact name as registered with the Connecticut Secretary of the State.
- c. Legal name, address, e-mail and telephone number of the applicant's attorney-in-fact or other legally empowered representative, if applicable.
- d. Legal name, address, e-mail, telephone number and certification number of any certified forest practitioner(s) retained by the applicant to prepare the application or to design, manage, or conduct the forest practice.
- e. Legal name, address, e-mail, telephone number and, if applicable, the forest practitioner certification number of the operator. Where the operator is unknown at the time the application is filed with the commission, such information shall be provided to the Commission no later than 10 days prior to the commencement of the forest practice.
- f. Address of the site, where there is an address, otherwise reference should be made to the tax map of the Town, specifying map, block and lot number.
- g. The estimated duration of the subject forest practice.
- h. A description of the subject forest practice, including the estimated commencement date of such practice.
- i. An Operational Plan.
- j. A description of each forest land to be harvested including species designated by the CT DEEP as endangered, threatened or species of special concern and if present the steps that will be taken to protect them, if requested by the Commission.

k. The color(s) of flagging materials or paint to be used shall be identified in the operational plan and on the site map.

l. A description of the method of site marking to be used, at the site and the color(s) to be, changing the color of flagging used to mark each operational design feature such as landings, road, trails, buffer areas, etc., and a general description of the size, species, quantity and quality of trees within the residual stand.

m. Maps

1. A map of the site ("site map") of a scale sufficient to identify the following: each proposed operating area; all legal boundaries of each such site; each proposed skid road, landing, and haul road; crossings; each wetland and/or watercourse, including vernal pools, which are within such operating area or which is outside such area but may be impacted by the subject forest practice(s); the boundaries of each operating area; any dwelling or other structure of any kind, if present, and the map/block/lot number(s) of the site from the Town's assessor's records. If other software and/or site plans are not available a "GIS" map may be used.

2. Unless otherwise specified, all maps included with an application may include an electronic version and paper copies which shall be at least 8 1/2 " x 11" in size and shall include a north arrow, the scale of the map, a readily identifiable land feature on a public road, a map legend, and a location map showing the parcel to be harvested in relation to nearby highways.

n. Authorization for the members and WEO/Designated Agent of the Commission to inspect the subject land, at reasonable times, during the pendency of an application and for the life of the permit.

o. List of Abutters, as defined by these Regulations.

p. Any other information the Commission or their agent deems necessary to understand what the applicant is proposing and to determine possible impacts to the forested/wetland areas.

q. The signature of a certified forester or a supervising forest products harvester as certified in accordance with Section 23-65h of the Connecticut General Statutes, as the same may be amended, who shall certify in writing the following:

r. The signature(s) of the landowner(s) of record upon which the forest practices are to occur, the applicant, if different, and the individual(s) who are responsible for actually preparing the application, each of whom shall certify in writing the following:

"I certify that, based on reasonable investigation, the forest practices which are the subject of this application are consistent with the requirements of the Forest Practice Regulations of the Haddam Inland Wetlands and Watercourses Commission to the best of my knowledge and belief."

Applications not containing the information listed in Section 4.3 may be denied by the Commission. However, the Commission may waive one or more of the foregoing requirements for good cause.

4.4 All information submitted in the application shall be considered factual, or in the case of anticipated activity, binding. A knowing failure on the part of the applicant or any of his/her agents to provide correct information or performance exceeding the levels of anticipated activity shall be sufficient grounds for the revocation of any permit issued under these regulations.

4.5 A primary submittal may be accepted electronically, but the Commission or Designated Agent may require in person copies to be submitted of any and all material.

4.6. Notice to Abutting Landowners

The applicant shall send a notice to abutting landowners (as defined in these Regulations) of the operating area. Such notice shall be sent certified or with a certificate of mailing no more than seven (7) days after filing the application. Proof of mailing is required at the time of the Commission's first meeting. The name and address of the abutting landowners shall be determined from the current municipal tax maps and/or assessment records. Such notice shall include the following:

- a. Legal name(s), address(es), and signature(s) of the landowner(s) or the applicant, if the applicant is different than the landowner.
- b. A copy of the site map filed with the application.
- c. A statement that an application has been filed with the Commission pursuant to the Forest Practice Regulations of the Haddam Inland Wetlands and Watercourses Commission seeking authorization to conduct a forest practice and shall include the meeting date that the matter will be on the Commission's agenda.
- d. Non-receipt of comments from agencies and commissions or others as described above within the prescribed time shall neither delay nor prejudice the decision of the Commission

4.7 Where to File an Application

An application shall be filed with the Commission at the following address:

HADDAM INLAND WETLANDS AND WATERCOURSES COMMISSION

30 FIELD PARK DRIVE

HADDAM, CT 06438

4.8 Correction of Inaccuracies

Within fifteen days after the date an applicant becomes aware of a change in any information in his or her application or notice or in any material proved in support thereof, or becomes aware that any such information is or was inaccurate or misleading or that any relevant information has been omitted, such applicant shall correct the inaccurate or misleading information or supply the omitted information in writing to the Commission. The provisions of this subsection shall apply both while a request for approval of application is pending and after the Commission has approved such request.

5. DECISION PROCESS AND PERMIT

5.1 Consideration for Decision:

The Commission may consider the following in making its decision on an application:

- a. How the proposed activity aligns with the practices outlined within the current Connecticut Field Guide: Best Management Practices for Water Quality While Harvesting Forest Products (or as amended/updated) as published by Connecticut's Department of Energy and Environmental Protection.
- b. The submitted application and its supporting documentation.
- c. Reports and formal comments or any other relevant documentation as it relates to the proposed activity from other Agencies and Commissions.

5.2 Action by the Commission

- a. The Commission may deny without prejudice an application if it finds that it is incomplete. The Commission may also deny an application if it finds that it is inconsistent with the requirements of these Regulations; provided, however, upon written request of the applicant, a forester certified by the Department shall review and make recommendations to the Commission on any application to conduct forest practices. The costs associated with any review provided for in this section shall be borne by the applicant provided in no event shall the total of fees and costs paid by the applicant in connection with an application to conduct forest practices exceed the standard fee which is charged by the Department of Energy and Environmental Protection for a similar application.
- b. The Commission may disapprove an application if it finds that the subject forest practice is inconsistent with the requirements of Sections 23-65(f) through 23-65(q) of the Connecticut General Statutes, as the same may be amended, or these Regulations or for any other reason provided by law.
- c. Disapproval of an application under this subsection shall constitute notice that the subject forest practice may not be conducted.
- d. The Commission may approve an application with reasonable conditions. If the Commission approves an application with conditions, the applicant shall be bound by such conditions as if they were a part of these Regulations.
- e. Rejection, disapproval or approval of an application shall be in writing, and shall be mailed to the applicant by certified mail, return receipt requested.
- f. The Commission shall reject, disapprove or approve a complete application within sixty-five (65) days of its receipt, provided that the applicant may consent to one or more extensions of time provided that the total of all such time extensions shall not exceed sixty-five (65) days. Date of receipt of an application shall be the day of the next regularly scheduled meeting immediately following the day of submission, or thirty-five days after such submission, whichever is sooner. Such notice shall state the reason for and duration of such extension.

Failure of the Commission to act on an application within the required time period shall not be considered an approval of such application. The time limits set forth in this Section shall be tolled during the review of an application denial by a forester designated by Section 7.2 (a) of these Regulations.

g. Upon approval of the application and prior to issuance of a permit, the applicant may, at the discretion of the Commission, be required to file a bond with such surety in such amount and in a form approved by the Commission and Town Treasurer. The bond or surety shall be conditioned on compliance with all provisions of these regulations and the terms, conditions and limitations established in the permit. The bond shall be available to be drawn upon should the Commission incur expenses related to erosion control, site remediation, or other measures to bring a forest practice into compliance with these Regulations or any permit issued hereunder.

h. Aggrieved parties may appeal any decision of the Commission in accordance with Connecticut General Statutes Section's 23-65q and 4-183.

5.3 Validity of Permit

A permit shall be valid for a minimum period of one year and a maximum of two years. If the permittee wishes to renew such application, he or she shall, at least thirty (30) days prior to its expiration date, notify the Commission. The Commission may renew the permit for one year without additional fee. Such renewal shall be in writing.

5.4 Reliability of Application

In evaluating an application, the Commission relies on information provided therein. If such information should prove to be false or incomplete, the approval may, after notice to the permit holder and the opportunity to be heard, be suspended or revoked in accordance with law, and the Commission may take any other legal action provided by law.

5.5 Duty to Provide Information

If the Commission requests any information pertinent to an approved application or to compliance with these Regulations, the applicant shall provide such information in the requested format within thirty (30) days of such request, and the time period specified in Section 5.2(f) above shall be tolled pending receipt by the Commission of such requested information.

SECTION 6. ANNUAL REPORTING TO COMMISSIONER OF ENERGY AND ENVIRONMENTAL PROTECTION

A Form, supplied by the Commissioner of Energy and Environmental Protection, shall be submitted on or before August first of each year annually by the Commission, and shall include (or as amended) the following:

- (1) All registrations approved, denied, or had enforcement notices or orders taken upon;
- (2) All applications received and rejected;
- (3) The number of acres of forest land to be converted to other uses. [an](#)

SECTION 7. SITE INSPECTIONS BEFORE, DURING OR AFTER AN ACTIVITY

If the Commission believes that an onsite inspection is necessary, the Commission may require the following of the property owner/applicant:

1. To schedule, within a reasonable timeframe a site inspection with Town Staff.
2. To coordinate and schedule within a reasonable timeframe with CT DEEP's Bureau of Natural Resources and Town Staff a site inspection.
3. To require the applicant or property owner to provide confirmation of comprehensive property liability insurance which covers injury to persons and damage to property which may result from the entry of authorized persons for site walks, inspections or other purposes in connection with the application and proposed operation.

SECTION 8. ENFORCEMENT-

8.1 The Commission may appoint an agent or agents to act in its behalf with the authority to inspect property, except the interior of a private residence, and issue notices of violation or cease and desist orders and carry out other actions or investigations necessary for the enforcement of these Regulations. In carrying out the purposes of this section, the Commission or its duly authorized agent shall take into consideration the criteria for decision under Section 5 of these Regulations.

8.2 The Commission or its agent may make regular inspections, at reasonable hours, of all regulated activities for which permits have been issued under these regulations.

8.3 If the Commission or its agent finds that any person has violated any provision of these Regulations, or has violated any provision or condition of any permit issued pursuant to these Regulations, the Commission may:

a. Issue a written order to such person to take such action as is necessary to correct and abate such violation or to otherwise comply with such statutes, regulations or permit conditions. Each such order shall be sent certified mail, return receipt requested, to the subject of such order and shall be deemed issued upon deposit in the mail. Any person who is aggrieved by such order may, within thirty (30) days from the date of such order or decision is issued, request a hearing before the Commission. The Commission shall not grant any request for a hearing at any time thereafter. After such hearing, the Commission shall consider the facts presented to the Commission by such person, shall consider the rebuttal or other evidence presented to or by the Commission or its agent, and shall then revise or resubmit the order to the person, or inform the person that the previous order has been disapproved or that it has been reaffirmed and remains in effect. The Commission may, after such hearing, or any time after the issuance of such order, modify such order by agreement or extend the time schedule therefore if the Commission deems such modification or extension advisable or necessary, and any such modification or extension shall be deemed to be a revision of an existing order and shall not constitute a new order. Any subsequent appeal shall be taken pursuant to Section 23-65q and Section 4-183 of the Connecticut General Statutes.

b. Issue a notice of violation to such person ~~conduction~~ conducting such activity or maintaining such condition, stating the nature of the violation, the jurisdiction of the Commission, and

prescribing the necessary action and steps to correct the violation, including, without limitation, halting work. The Commission may request that the individual appear at the next regularly scheduled meeting of the Commission to discuss the unauthorized activity, and/or provide a written reply to the notice or file an application for the necessary permit. Failure to carry out the action(s) directed in a notice of violation may result in issuance of the order provided in subdivision 8.3a or other enforcement proceedings as provided by law.

c. If any person fails to comply with any provision of these Regulations, or with any provision or condition of any permit or order issued pursuant to these Regulations, the Commission, in accordance with Section 23-65m of the Connecticut General Statutes, may bring an action in a Superior Court for to enjoin such person to comply fully with said provisions of these Regulations and with the provisions or conditions of any permit or order adopted or issued hereunder.

c. If any person violates any provision of these Regulations, or any provision or condition of any permit or order issued pursuant to these Regulations, the Commission may institute a civil action to recover civil penalties as provided for in Section 23-65n of the Connecticut General Statutes. The maximum civil penalty for each violation shall be five thousand dollars. The civil penalty shall be assessed and fixed by the court. Each violation shall be separate and distinct offense and, in the case of a continuing violation, each day's continuance thereof shall be deemed to be a separate and distinct offense.

SECTION 9. OTHER FEDERAL, STATE OR LOCAL LAWS

Nothing in these Regulations shall relieve any person of the obligation to comply with any other applicable federal, state and local law, including but not limited to the obligation to obtain any other authorizations or permits required by such law.

SECTION 10. CONFLICT AND SEVERANCE

10.1 If there is a conflict among the provisions of these regulations, the provision, which imposes the most stringent standards, shall govern. The invalidity of any word, clause, sentence, Section, part, Subsection, subdivision or provision of these regulations shall not affect the validity of any other part which can be given effect without such invalid part or parts.

10.2 If there is a conflict between the provisions of these Regulations and the provisions of the Act, the provisions of the Act shall govern.

SECTION 11. APPLICATION FEES

11.1 Method of payment. All fees required by these Regulations shall be submitted to the Town of Haddam at the time the application is filed with the Commission.

11.2 No application shall be granted or approved by the Commission unless the correct application fee is paid in full unless waived as outlined below.

11.3 The application fee is not refundable.

11.4 Fee schedule. Application fees shall be based on the following schedule:

Application Fee: \$125.00

There is no state land use fee for forest practices (Chapter 451a)

11.5 Exemption:

Boards, commissions, councils and departments of the Town of Haddam are exempt from all fee requirements.

11.6 Waiver

For Forest Practices Applications that also require an Inland Wetlands and Watercourses Application, the applicant may petition the Commission to waive payment of the Forest Practices Application fee. The Commission or its Agent may waive the application fee if the Commission or its Agent determines that the proposed activity is being substantially addressed through the Wetlands permit application process. The Commission or its Agent shall state upon its record the basis for all actions under this subsection.

SECTION 12. EFFECTIVE DATE OF REGULATIONS

These regulations and any amendments are effective upon filing with the Office of the Town Clerk and publication of a notice of such filing in a newspaper having a general circulation in the Town of Haddam.
